1-(707)-991-1031
[lancelot-nk.github.io](https://github.com/lancelot-nk)

8 Years of Program and Data Management

New York, NY 10002
github.com/lancelot-nk

SKILLS

Programming: Python, R, STATA, SQL, T-SQL, MATLAB, SPSS, bash, HTML5, CSS3, JavaScript, TypeScript, Java

Machine Learning & AI: Scikit-Learn, Pandas, NumPy, Hugging Face, LangChain, TensorFlow, PyTorch, Keras, MLOps, NLP, *Predictive Algorithms, ML Recommendations, AI Recommendations, Model Tuning + Evaluation, Regression Analysis, A/B Testing, Hyperparameter Tuning, Deep Learning, Neural Networks, AI Ethics + Governance*

Data, Cloud & Infrastructure: Microsoft Azure, AWS (S3, EC2), NoSQL, PostgreSQL, MySQL, Snowflake, BigQuery, dbt, Databricks, Apache Airflow, Apache Spark, MongoDB, Cosmos DB, Data Lake Gen2, Blob Storage, Supabase, Oracle Cloud CLI, ETL/ELT, JSON, Postman, *Data Warehousing, Data Governance, FinOps, Data Privacy + Security*

BI & Visualization: Power BI, Tableau, ThoughtSpot, Qlik Sense, React, NextJs, Vite, ArcGIS, MapLibre GL JS, Seaborn, Matplotlib, Plotly, Excel (Advanced/VBA), Power Query, Google Analytics, *Data Storytelling, Executive Dashboards, Impact Assessment, Automated Reporting, KPI Scorecards, Grant + Compliance Tracking*

Program Tools: Jira, Asana, Monday.com, Microsoft Project + Teams, Google Workspace, Slack, Github, HMIS, UiPath, CRM + CSM (Salesforce, HubSpot, Oracle NetSuite, Cvent, Zendesk, Dynamics 365), Zapier, E-Grants, *Grant Writing, Grant Procurement, Program Management, Stakeholder Engagement, Regulatory Compliance, NIST RMF Framework, Agile + Scrum, Budget Management, Change Management, Process Engineering, Partnership Development, Auditing*

EDUCATION

Goucher College

Aug 2015 - May 2019

BA — Economics (Public Health Minor)

RELEVANT EXPERIENCE

MIT — Applied AI & Data Science Certification

Jun 2025 – Oct 2025

Cambridge, MA

- **Role:** Studied at MIT to gain certification in data work I've been doing in my career.
- **Outcome:** Formalized skills in Machine Learning, Applied AI, and Data Science by optimizing models to accuracy boosts of 50% and reduced training latencies of 30% via advanced hyperparameter tuning and pipeline.
- **Tools:** Python, R, Seaborn, NumPy, Pandas, Scikit-Learn, TensorFlow, Keras, Generative AI, Transformers, OpenCV, Hugging Face, ChatGPT, DALL-E, Langchain, Natural Language Processing, Predictive Algorithms, Data Processing, Data Visualization, Tableau, Deep Learning, Data Analysis, Amazon Web Services Cloud.
- **Relevant Projects:** [Python And Statistics Demo](#) (Restaurant Business Dataset), [ML Recommendation System](#) (Amazon Item Dataset), [AI Recommendation System](#) (Hybrid SVD Model, Music Dataset).

Microsoft — Azure Data Fundamentals Certification

Jun 2025 – Oct 2025

Redmond, WA

- **Role:** Utilized Microsoft Learn course work to improve Azure data service skills. Managed and processed cloud-based datasets while ensuring architectural alignment and functionality.
- **Outcome:** Engineered a robust automated cleaning framework that improved data quality scores from 65% to 98% by successfully identifying and neutralizing 15+ dirty-data edge cases in a controlled sandbox, for example.
- **Tools:** Azure SQL, NoSQL, T-SQL, MySQL, Apache, Cosmos DB, Synapse Analytics, Data Factory, Power BI, Blob Storage, Data Lake Gen2, ETL/ELT Pipelines, Relational/Non-Relational Modeling.
- **Relevant Projects:** [Simulated Azure Blob Storage and SQLite Pipeline](#) (Kaggle Sales Dataset), [NoSQL Donor Management Database](#) (Donation Dataset), [Automated FinOps Cloud Budget Tracker](#) (Cloud Services Dataset).

New York City HRA — Program & Data Manager

Nov 2023 - Sep 2024

New York, NY

- **Role:** Directed enterprise-level Data Management and Data Integration of the New York SNAP/EBT system to direct and increase a \$7.6 billion budget while following regulatory compliance.

- **Outcome:** Utilized ground research and testing data to inform infrastructure updates that decreased employee workload by 40% and increased system accuracy for clients by 25%. Automated reporting and compliance workflows using RPA tools + Data Engineering, reducing manual touch points across benefit-issuance pipelines.
- **Tools:** Cúram (ACCESS HRA), WMS (Welfare Management System), POS (Paperless Office System), UiPath (RPA), SQL (SSIS), dbt, Power Automate, Tableau, Excel (Advanced/VBA).
- **Relevant Projects:** [Simulated NYC HRA Intake Pipeline and Backend Case Management](#) (Client Dataset), [Fraud Detection Auditing Tool](#) (Security Dataset), [Automated Benefit Issuance Helper & Budget Variance Engine](#)

City Of New York — Events & Community Data, Part Time

Oct 2023 - May 2025

New York, NY

- **Role:** Directed full-cycle Program Development and event design for NYC using advanced Data Science and Data Analysis strategies to drive informed process improvements.
- **Outcome:** Created innovative outreach strategies alongside predictive analysis that increased overall platform conversion and boosted event attendance by 35% with 30% more events possible.
- **Tools:** Cvent, Salesforce CRM, Eventbrite, Partiful, Luna, Zapier, Asana, Monday.com, Mailchimp, Slido (Analytics), Tableau (Reporting), Microsoft Excel, and Microsoft Teams.
- **Relevant Projects:** [NYC Events Management System Dashboard](#) (NYC Events Dataset), [Interactive Annual Report](#) (NYC Events Dataset), [Automated Multi-Channel Outreach & Conversion Funnel](#) (Outreach Dataset)

Comprehensive Life Resources — Program & Data Manager

Sep 2022 - Sep 2023

Tacoma, WA

- **Role:** Provided wraparound services to those without homes or unstably housed as leaders in State and City grants alongside successful models such as 'FHARPs' by completing grant deliverables, grant procurement, and process based upkeep alongside technical solutions.
- **Outcome:** Deployed feedback cycles and nuanced experience to redesign the State system, significantly improving data capture and operational efficiency for 1,000s of clients by 60% via Data Engineering.
- **Tools:** ArcGIS, Google Forms, Microsoft Excel (Data Methodology), HMIS (Clarity), WA SAW (SecureAccess Washington), PRISM (Online Grant Management), Julius (Peer Services Data).
- **Relevant Projects:** [Homeless Services Backend Dashboard And Compliance Tool](#) (WA State Dataset), [ARCGIS Mapped Client Data Report Tool](#) (WA State Dataset), [Peer-Report & Internal Complaint Auditing System](#)

Federal Agencies — Federal Contractor (Multiple)

Oct 2021 - Aug 2022

Washington, DC

- **Role:** Awarded multiple independent contracts in research and management within federal agencies, applying program management methodology with information acquisition and situational analysis.
- **Outcome:** Engineered a standardized Data Warehousing and situational analysis framework that enhanced multi-scale operational outcomes by 25% via structured Data Management. Applied NIST Risk Management Frameworks and cybersecurity standards across classified and sensitive operations environments.
- **Tools:** Risk Management Frameworks (RMF), NIST Standards, SQL, Advanced Excel, Microsoft Project, Data Security, Secure Communication Platforms.
- **Relevant Projects:** [Federal Project Compliance And Risk Framework Tracker](#) (Federal Dataset), [Multi-Agency Situational Intelligence Pipeline](#) (MASIP), [NIST-Aligned Cybersecurity Audit & Continuity Simulator](#)

FRA — Environmental Researcher, Oil Train Safety

Apr 2021 - July 2021

Washington, DC

- **Role:** Completed research for Hazardous Materials and Human Factors Division in accordance with regulatory principal and localized nuance, attributing to movements in policy or programming for solutions in urban transport at multiple levels of scale.
- **Outcome:** Produced reports and policy coverage material through Data Science techniques that informed agency-wide programming, significantly reducing localized safety risks in implementation.

- **Tools:** ArcGIS (Spatial Analysis), NEPA Frameworks, FRA Safety Standards, Microsoft Excel (Data Modeling), Tableau, Graphic Design, Adobe Acrobat and Federal Reporting Suites.
- **Relevant Projects:** [DC Train Environmental Risk ARCGIS Map With Compliance Analysis](#) (DC Dataset), [Public Safety "Impact" Interactive Newsletter](#) (Press Report), [NEPA-Aligned Urban Transport Literature Review Applet](#)

Lytix, Inc. — Technical Specialist, Fleet Management & AI Integration

Jan 2021 - Apr 2021

San Diego, CA

- **Role:** Maintained client satisfaction and onboarding stability through troubleshooting, data entry, and integral safety checks of hardware compatibility.
- **Outcome:** Leveraged technical experience and customer engagement techniques to maintain B2B leads, increasing lead generation and customer satisfaction by 30% each.
- **Tools:** Salesforce CRM, Gainsight (CSM), Zendesk (Ticketing), HubSpot, Jira (Bug Tracking), Lytx DriveCam API, Telematics Data Suites, and Oracle NetSuite (ERP), Microsoft Excel.
- **Relevant Projects:** [CSM Style Backend Customer Service Decision Tree](#) (Customer Dataset), [Sales Team Hardware Compatibility & Need Matrix](#) (Sales Dataset), [B2B Target Tracker & Seasonal Churn Predictor](#)

Solar Household Energy, Inc. — Assistant Director

Dec 2019 - Jul 2020

Washington, DC

- **Role:** Visualized publications, donor outreach graphics and grant-writing materials while utilizing social feedback cycles and economic analysis to assess the feasibility of programs and improve upon local and culturally relevant models of implementation. Integrated Data Visualization for proposal and grant presentations.
- **Outcome:** Bolstered industry strength through R&D and multi-actor projects, resulting in clear upticks in donor engagement, decreased energy expenditure, and improved indoor air quality.
- **Tools:** Adobe Creative Suite (Illustrator/Photoshop), Salesforce (Donor Management), Mailchimp, Google Analytics, Excel, Google Ads, and Website Design (HTML5/CSS).
- **Relevant Projects:** [NoSQL Donor Management Database](#) (Donation Dataset), [Interactive SHE NGO Annual Report](#) (Donor Materials), [Interactive Multi-Agency Proposal](#) (Based on real FXB Proposal)

Living Classrooms Foundation DC — Program & Grant Consultant

Sep 2019 - Dec 2019

Washington, DC

- **Role:** Derived textual and budgetary analysis for DOEE grant applications to promote green workforce development and the transformation of Kingman Island greenspace.
- **Outcome:** Orchestrated a suite of wraparound programs and successfully designed a grant funded meta-analysis for their integration. Designed cross-participation to enhance educational and workforce opportunities alongside rainwater retention gardens and eco job development.
- **Tools:** Salesforce (NPSP), VolunteerHub, Microsoft Excel (VBA/Budgetary Modeling), E-Grants (DOEE Portal), SMART (Participant Tracking), and SurveyMonkey (Meta-Analysis), Acrobat.
- **Relevant Projects:** [Kingman Island RFP Proposal Interactive Report](#) (Based on real RFP), [Program And Facilities Budget Audit](#) (Program Dataset), [Green Workforce Tracker & Site Development Orchestrator](#)

Where There Be Dragons — IRB Social Policy Researcher

Aug 2018 - Jan 2019

Varanasi, India

- **Role:** Conceptualized the environmental impact of natural gas cremation technology and its confluence with local spiritual tradition through multi-system energy dynamics.
- **Outcome:** Created and conducted an IRB-approved study and publication in accordance with NIH principles, resulting in broader regional support for Sankat Mochan Water Foundation.
- **Tools:** NVivo (Qualitative Analysis), Qualtrics, NIH Ethics Framework, Structured Interviews, Ground Level Research, SPSS, and Zotero (Academic Publication Management).
- **Relevant Projects:** [IRB Reviewed Study Impact Of Natural Gas Cremation In Varanasi](#) (Formal Paper)
